

TECHNICAL SPECIFICATIONS & NOTES																															
GENERAL INFORMATION																															
SECTION 1: GENERAL NOTES																															
SECTION 2: MATERIALS																															
SECTION 3: CONSTRUCTION METHODS																															
SECTION 4: FINISHES																															
SECTION 5: ELECTRICAL																															
SECTION 6: MECHANICAL																															
SECTION 7: PLUMBING																															
SECTION 8: PAINTS & COATINGS																															
SECTION 9: FLOORING																															
SECTION 10: ROOFING																															
SECTION 11: CLADDING																															
SECTION 12: GLAZING																															
SECTION 13: METALS																															
SECTION 14: WOOD																															
SECTION 15: CONCRETE																															
SECTION 16: MASONRY																															
SECTION 17: STRUCTURAL STEEL																															
SECTION 18: REINFORCING																															
SECTION 19: INSULATION																															
SECTION 20: VENTILATION																															
SECTION 21: HEATING																															
SECTION 22: AIR CONDITIONING																															
SECTION 23: SANITARY																															
SECTION 24: WATER SUPPLY																															
SECTION 25: SEWERAGE																															
SECTION 26: GAS																															
SECTION 27: TELECOMMUNICATIONS																															
SECTION 28: SECURITY																															
SECTION 29: SOUND & VIBRATION																															
SECTION 30: LIGHTING																															
SECTION 31: SIGNAGE																															
SECTION 32: FURNITURE																															
SECTION 33: EQUIPMENT																															
SECTION 34: ACCESSIBILITY																															
SECTION 35: SAFETY																															
SECTION 36: ENVIRONMENTAL																															
SECTION 37: HISTORIC PRESERVATION																															
SECTION 38: ARCHITECTURAL DETAILS																															
SECTION 39: SCHEDULES																															
SECTION 40: APPENDICES																															
[Detailed technical specifications and notes for each section, including material grades, construction methods, and finish requirements.]
